**METHOD AND APPARATUS FOR SENSING**  
**SEAT OCCUPANT WEIGHT**

The Applicant is advised that the present application is now being handled by a different Examiner of Record.

In response to the Applicant's amendment (paper no. 10) dated Feb. 12, 2002, the following now applies:

**RESTRICTION**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 and 19-21, drawn to a system for measuring weight of an occupant seat, classified in class 73, subclass 760+.
- II. Claims 8-18, 22, and 23, drawn to a system for measuring weight of an occupant seat, classified in class 73, subclass 760+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as measuring weight of a vehicle seat wherein a second track is movable relative to the first track (invention II does not require the second track to be movable “relative” to the first track) and the first track does not require a first sensor assembly mounted thereon in combination with the second track not requiring a second sensor assembly mounted thereon (invention II requires a first and second sensor assembly mounted on the inboard and outboard tracks respectively). See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for invention I is not required for invention II, restriction for examination purposes as indicated is proper.

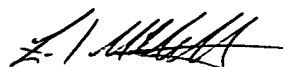

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Art Unit: 2855

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

**CONCLUSION**

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Eric S. McCall whose telephone number is (703) 308-6968.
